Abstract

The early years of the twentieth century coincide with important events in the history of Elbasan and Albania. One of them is the Congress of Elbasan, called the Congress of Albanian schools, which was held from 2 to 8 September 1909. Given the importance of the decisions that took, he entered the great events of our history. In his work, Congress will consider, in particular, the problem of Albanian school that was the subject of attacks Young Turks, teacher's preparation, organization nationwide network of Albanian schools focused their direction from a national institution and providing funds for their maintenance. Because of the critical importance that decisions were taken in this Congress about the national future, he has been the subject of study of many Albanian authors, but also foreign. Among the distinguished scholars who have appreciated the achievements of the Congress of Elbasan are Gabriel Louis Jaray, Zvir Joseph Edwin Jackues. At the core of his decisions is important Albanian. The language, teaching were decisions the same school programs and in preparing the ground for a unique system. Association'' Perparimi" would play the leading role in the organization of national education. After the Congress of Elbasan, national education took an evolution that was incredible for that time. The congress could consider the most culminating moment. He lets signs in the realization of the dreams for Albanian people. Despite their different perspectives on the Congress of Elbasan common denominator is that they assess it as an attempt to unify the Albanian language, opening schools, and understanding of Albanians despite religious differences and appreciate the desire of the Albanians to see their country completely. All their work and efforts made by the Renaissance movement made it possible to finally Albanian leaders were aware that if their country will not be immediately reached autonomy and freedom to continue national education he would not was never able to prepare for independence.
