Abstract

In this work, considering the play performance & sport as open systems (p. s by open systems we mean the ability to express, think and do the same thing in different ways and different things in the same way) is introduced the role played by play performance and sport in cultural and social formation and especially the role they play in psychological, emotive and physical formation in humans. In this work we are going to analyze what are the open systems, what is play performance, thinking and concerting of play performance, the play by itself and alternative visions to reality, what is sport, the influence of culture in sport as well as the sport function in the native country.

Keywords: sport, game, play, open system, culture
